

# CDP-2/5 (3/5)

## Multi-speed switch

### Features

- On/off switch and speed switch for multi-speed fans.

### Design

- Casing made of high-quality plastic.
- Flush wall mounting.
- IP40 ingress protection rating.

### Control

- Switching of fan speed according to diagram 1 and switching of fan speed in parallel with switching the light in the room, diagram 2.

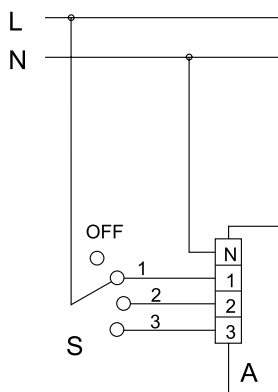

### Mounting

- Indoor wall flush mounting in a mounting box.
- Suitable for installation in standard electric junction boxes.

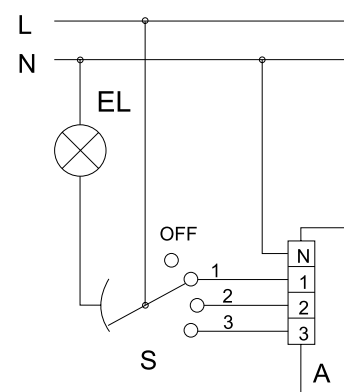

### Technical data

| Parameters                       | CDP-2/5  | CDP-3/5  |
|----------------------------------|----------|----------|
| Voltage 50 Hz [V]                | 1 ~ 230  | 1 ~ 230  |
| Rated current [A]                | 3.0      | 3.0      |
| Number of speeds                 | 2        | 3        |
| Overall dimensions AxBxC [mm]    | 88x88x51 | 88x88x51 |
| Maximum ambient temperature [°C] | +40      | +40      |
| Ingress Protection               | IP40     | IP40     |

### Wiring diagram options

**Diagram 1.** The external switch S (CDP-3/5) switches the fan to one of three speeds and switches it off.

**Diagram 2.** The external switch S (CDP-3/5) switches the fan to one of three speeds and switches it off with parallel switching on/off the light in the room.
